## Melbourne – Bayside (Windows on the Bay)

Windows on the Bay is located on the beach in Mordialloc, the best part about this eatery is that regardless of the weather you can sit and look at the bay. It was a windy day in Melbourne when we decided to dine and we not only could look across the bay but we watched people kite surfing and enjoying all that the windy conditions had to offer. I decided to start my meal with scallops served on a fine garlic potato puree with truffle oil; very nice. This was followed by salmon served with a salad of red capsicum, cucumber, olives and a chardonnay sauce...cooked to perfection. My friend had the tempura prawns as a starter and followed this with the Barramundi atop Asian vegetables in oyster sauce, with sweet chili dressing, also cooked to perfection. Now I am not one to normally have a desert but this was definitely a good time to have one. Why? Because on a Tuesday you receive 50% off your meal if you order one main and a desert at either lunch or dinner. So why not indulge in one of the tempting deserts to receive that 50% off. Defiantly worth it. We had only one negative experience in where we nearly enjoyed another tables wine as all bottles are placed in a central area. My suggestion is they allocate wine buckets to each table. This would enable a closer proximity to the wine. As one knows that you can get very parched watching those Kite boarders!! Overall I would recommend this restaurant not only for the view but the food. 333 Beach Road Mordialloc. Ph 95802899.
